Subject: RE: Leviathan meeting

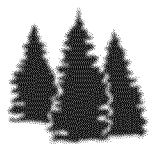

I have known Kendra for years-met her on and off at various meetings.

I am not sure what Kendra did with the Leviathan Bioreactors. I remember that she worked on them with Glenn Miller (UNR/DRI researcher). Tim Tsukamoto (TKT Consulting in Reno NV) was the creator of the Leviathan bioreactor being used at Aspen Seep.

[REDACTED]

I am not representing an organization or agency.

I am interested because Leviathan bioreactors were my PhD project.

I currently work for the Center for Science in Public Participation (CSP2), if you want to use that, but I am not doing any work related to Leviathan through them.

Kendra

Thanks Kendra, could you provide your full contact information, and organization/agency you are representing?

Thanks!
